

ANNUAL EVENT REPORT 2024-25

DEPARTMENT OF COMPUTER SCIENCE

The Department of Computer Science actively organised a variety of academic and co-curricular events throughout the academic session **2024–2025**

1. Trivia Frenzy 2025:

Trivia Frenzy 2025, held on **13th February 2025** and organized by **InspiriTi** at Innovation Plaza 1, was a dynamic and intellectually stimulating quiz competition designed to challenge and engage students through multiple rounds of trivia covering technology, general knowledge, current affairs, and logical reasoning. The event attracted enthusiastic participation from both within and outside the college.

2. AGON'25 – Annual Inter-College Fest:

AGON'25, held on **27th February 2025** at the **Shyam Lal College (Evening) Campus**, was a grand celebration of creativity, technical excellence, and collaboration. As the department's flagship inter-college fest, it attracted over 75 participants from reputed colleges across the University of Delhi and beyond. The event commenced with a ceremonial lamp-lighting and welcome addresses by Principal Prof. (Dr.) Nachiketa Singh and Ms. Sonia Singh, Teacher In-Charge, who emphasized the importance of extracurricular activities in fostering holistic growth and team spirit. Five competitive events — Pixel Perfect, Design Verse, Grid Master, Doodle Contest — were conducted across multiple venues, assessing students on diverse skills including design, logic, communication, and problem-solving. Judging panels comprised faculty members and alumni professionals, ensuring fair and constructive evaluations.

3. Lecture: Redrawing Social Media Boundaries Using AI

Held on **26th March 2025** at the Seminar Hall, the lecture titled “**Redrawing Social Media Boundaries Using AI**” offered an insightful exploration into how Artificial Intelligence is reshaping digital interaction. Organized to examine the impact of AI on personalization, misinformation, security, and ethics in social media, the session featured a compelling keynote by **Prof. Hema Banati** from Dyal Singh College. She discussed real-world applications like algorithmic filtering, behavioral analytics, and content regulation, highlighting their implications on freedom of expression and digital democracy.

These three events — Trivia Frenzy 2025, AGON'25, and the expert lecture on AI and social media — reflect the Department of Computer Science's commitment to creating a vibrant and inclusive academic environment. Each initiative was thoughtfully curated to promote student development, encourage innovation, and foster intellectual dialogue. The department looks forward to building on this momentum in the coming academic year with even more impactful initiatives.

Ms. Sonia Singh
