With the same determination, we had embarked on a Journey on September 8, 1969, by setting up the Department of Commerce, Shyam Lal College (Evening), University of Delhi.

Commerce, besides being a traditional stream of education, is also the backbone of any economy and for expansion, it requires knowledge, skills, and attitudes among the students for the successful handling of trade, commerce, and industry. The department equips students with the latest developments in the field of business and commerce and trains them with technical knowledge and practical perspective to face global competition with modernized tools and approaches. It seeks to enable them to handle the challenges of growth and transformation of businesses through critical thinking, rational attitudes and quality decision making.

The department has adequate well qualified, competent faculty who are dedicated to the academic and overall development of the student community. The teaching highlights of the faculty of our department are Learner-centric, ICT enabled, continuous assessment and comprehensive & realistic evaluation. Department of Economics

The Department of Economics, Shyam Lal College (Evening) was established in 1969. Initially, it offered Economics to BA (Programme) students. From 1998 onwards, the department extended it to BA(Honours) in Economics. Our able faculty members, a total of ten in numbers, make a diverse knowledge space, which makes it easier to offer as many optional papers as other higher-ranked colleges of the University of Delhi for our students whether it is BA (Honours) or BA (Programme). Our department aims to prepare students according to global standards in the economics discipline. It is aimed to inculcate advanced thinking in economics discipline, logical and critical thinking, and skills for employability. Following the Learning Outcome-based Curriculum Framework adopted by Delhi University, the department adopts the teaching and learning approaches that are most appropriate for the students. Classroom teaching is complemented with PowerPoint presentations, tutorials, seminars, talks, group discussions, and educational trips for the holistic development of the students. The economics department has a reputation for providing an excellent environment for the multi-dimensional development of its students, right from inception. Our students have achieved remarkable heights in various fields such as bureaucracy, banking, academia, corporate, etc.

Ecosquare

ECOSQUARE, the Economics Department's Society, is a step towards providing a conducive environment for the overall growth of our students. Department of English

English has been taught at Shyam Lal College (Evening) since its inception in 1969. The Department of English is one of the oldest and most reputed departments of the College. Its reputation has steadily enhanced over the years through the hard work of its faculty, which has traditionally combined excellence in research with a dedication to pedagogy. Though, an Undergraduate Department, the diverse specialisation of the faculty provides much-needed guidance and support to enrolled students as well as to its Alumni. Each of the faculty has, besides teaching, numerous research papers to their credit.

Since the college caters to students from diverse backgrounds; the main strength of the department is the bilingual competence of the members of the faculty. The department organises extra-curricular activities, in addition to lectures and interactive sessions with eminent national and international scholars and writers and has been able to nurture the talents of many students.

One of the major responsibilities of the department is to enhance the General English of the students and to make them confident of using the skills of listening, speaking, reading and writing which restricts their ability to be recruited to suitable jobs. The importance of the English language as a subject has increased over the years as it is a global language and students from all the Departments get to study English subjects in their undergraduate classes. Our department plays a major role in shaping up young minds by engaging them in various activities in online as well as offline mode. Department's dedicated staff through their hard work and commitment hone the critical skills of the students through the texts prescribed and try to make it relevant for them to relate it with their day-to-day life. Apart from textual knowledge various academic activities are also

undertaken to make classroom teaching engaging as well as interesting. These efforts are the reason why students from all over the country while taking admission in the college especially ask for English subject as one of their options.

ELLA

The Department of English has a vibrant English Association with the name "ELLA", that organizes various Programmes and activities on regular basis. Through ELLA's student centric activities, participants get an opportunity to hone their

language skills as well as analytical thinking. It helps students gain better understanding of not just the subjects of perusal but also of the challenges in the contemporary times. Department of Mathematics

Mathematics plays a vital role in all aspects of life, whether in everyday matters such as time tracking, driving, cooking, or jobs such as accounting, finance, banking, engineering, and software. These functions require a strong mathematical background, and scientific experiments by scientists need mathematical techniques. They are a language to describe scientists' work and achievements. As for mathematical inventions, they are numerous throughout the ages. Some of them were tangible, such as counting and measuring devices. Some of them are not as tangible as methods of thinking and solving.

Our department intends to provide superior quality skills to undergraduate students in the field of mathematics. Established in 1969, the department continuously strives to instill in the students strong analytical and computational techniques which prepares them for real-world roles in mathematics. We equip our students with the skills required for the ever-changing global environment. We focus on the holistic growth of students to produce highly qualified undergraduates who not only master the concepts of mathematics theoretically but can effectively find their applications in the real world.

Eureka

The Mathematics Department has an active Mathematics society called 'EUREKA'. It provides a platform to students for showcasing their mathematical skills through various events and competitions like paper presentation, mathematical quizzes, discussions, mathematical games and poster making. It also invites eminent mathematicians and professionals who enrich the mind of students and teachers through their knowledge and expertise. Students also get an opportunity to interact with the best brains in the field of mathematics and sciences.

Department of History

The Department of History, established in 1969 has five faculty members who contribute infusing a dynamic state-of-the-art with rational culture and exposure among the students. symbol of continuity and change. Research in history over the last few years has unlocked novel boundaries in the discipline. The 20th century has furthermore revolutionized the study of history by using other disciplines such as economics, anthropology, and geography in the study of global history. The history curriculum at the Shyam Lal College (Evening) acquaint the students with emerging arenas and numerous exciting activities. This is being done around a variety of themes and is also in line with the NEP 2020. We impel students to abide by a multidisciplinary approach for understanding history in a lucid framework. The scholarly objective of faculty members is to advocate active research pieces, publishing books and articles. education. We have also adopted Learning Outcome-based Curriculum Framework.

DSC 2 may be of Discipline B (say , Zoology) and
DSC 3 may be of Discipline C (say , Chemistry).

Important Note:
To major in any one of the three disciplines, students must study at least Three DSEs of that particular discipline in the first three years.

Important note: Students studying DSEs offered by any Discipline other than His/Her Core Discipline will be treated as GE for Him/Her

In the fourth year (Sem VII and Sem VIII), students will study only one of the discipline i.e., either A or B or C in both of the semesters.

Honours Degree: To pursue an Honours degree in a field of multidisciplinary study, candidates will have to choose, in the fourth year, only one of the disciplines (either A or B or C). Candidates will have to study **Two** DSCs and **Six** DSEs in the chosen discipline in the VII and VIII semesters and write dissertation.

Major and Minor shall be awarded on fulfilment of the following conditions.
Major -> 80 credits. Minor -> 28 credits

Advise: Students are advised to choose the discipline in which they wish to Major and must study at least **Three DSEs** of that discipline in the first three years. Like in this example, student must decide earlier and study **three DSEs of Botany** in the first three years as only **maximum of six DSEs** are available in fourth year. Similarly, If the student want to minor in any of the remaining two disciplines, he/she should study **one DSE** of that discipline in the first three years.

He/She shall get a Minor in Zoology, if he/she earns minimum 28 credits from **Six** DSCs and **one** DSE of Zoology. Or
He/She shall get a Minor in Chemistry, if he/she earns minimum 28 credits from **Six** DSCs and **One** DSE of Chemistry.

Case II: If a student doesn't do dissertation in Botany, but in other disciplines, say Zoology or Chemistry, or does Academic Project or Entrepreneurship, then he/she will not be awarded Major in Botany; he/she will be unable to get 80 credits. In such cases, he/she will be awarded B.Sc. (Honours) Life Sciences.

Research Methodology⁹ shall be offered as one of the DSE courses in the VI and VII semesters. Students can opt for it either in VI or VII semester.

- 14 DSCs + 5 DSEs + Dissertation = 88 Credits
- 14 DSCs + 4 DSEs + Dissertation = 84 Credits
- 14 DSCs + 3 DSEs + Dissertation = 80 Credits
- 12 DSCs + 6 DSEs = 80 Credits
- 12 DSCs + 7 DSEs + Dissertation = 88 Credits
- 12 DSCs + 6 DSEs + Dissertation = 84 Credits
- 12 DSCs + 5 DSEs + Dissertation = 80 Credits
