Report for Academic Year 2023-24

Slide Stories – Crafting Bharat's Digital Future

April 2024 | Computer Lab

In April 2024, the Department organized a Presentation Competition titled **"Slide Stories: Crafting Bharat's Digital Future"**. The theme, "**Role of Digital Empowerment in Viksit Bharat 2047**", challenged students to envision how technology could shape India's growth and transformation in the coming decades.

Participants prepared engaging slide-based presentations that blended research, storytelling, and innovation, addressing issues such as digital literacy, AI-driven governance, cybersecurity, inclusive access to technology, and the role of youth in building a digitally empowered India. The event provided a platform for students to showcase their creativity, analytical skills, and forward-thinking ideas, while also sparking meaningful dialogue on how digital empowerment can contribute to the vision of a developed India by 2047.

The competition witnessed enthusiastic participation and was appreciated for its relevance to national aspirations, making it one of the highlights of the academic year.

After an intense battle of logic, evidence, and eloquence, the following winners were announced:

- **First Prize:** Madhav Kumar [B.A. Programme. Shyam Lal College (Evening)]
- **Second Prize**: Ayush Singhal [B.A. Programme, Shyam Lal College (Evening)]

Their remarkable performance highlighted the debating talent of the college and brought pride to the institution.

Upgrade of Computer Labs

The Department of Computer Science requested the college to upgrade the Computer Labs. New computers were installed, providing students with improved access to technology, advanced tools for learning, and better facilities for research and project work. This effort reflected the Department's commitment to keeping pace with rapid technological advancements and ensuring that students are equipped with modern digital resources.

Through initiatives like the lab upgradation and the "Slide Stories" presentation competition, the Department of Computer Science reinforced its dedication to both infrastructure development and intellectual growth. The year 2023–24 marked a significant step in empowering students with resources, skills, and platforms for innovation. The Department looks forward to carrying this momentum into the upcoming academic sessions with even more impactful initiatives.
